**20 marks**

1. Read the passage given below and answer the questions that follow : 8

- 1 Once a man saw three masons along with some labourers constructing a temple. He observed the masons for three days and found that though the three of them were doing the same kind of work, there was a marked difference in their approach to their job.
- 2 He saw that the first mason reported for his work late, did his work halfheartedly and sluggishly, enjoyed a longer respite, frequently checked the time on his wristwatch and left the work before time.
- 3 The second mason was very punctual in arriving and leaving, and did his work methodically. The third mason, however, would come before time, take little rest in the interval and often worked overtime.
- 4 The man naturally got curious and wanted to know the three masons' outlook on their work. He asked them what they were doing. The first mason tapped his big belly with his hand and said, "I am earning food for myself." The second said, "I am constructing a building." The third mason looked at the huge building and said, "I am building the house of God."

1.1 On the basis of your understanding of the above passage, answer **any eight** of the following questions :  $1 \times 8 = 8$

- (a) What were the three masons doing ?
- (b) For how long did 'a man' observe them ?
- (c) What made the man curious ?
- (d) How did the first mason do his job ?
- (e) What was the second mason's approach towards his job ?
- (f) How did the third mason view his job ?
- (g) With whom among these can you associate the phrase 'work is worship' ?
- (h) Which word in the passage means 'working lazily' ? (para 2)
- (i) Which word in the passage means the opposite of 'carelessly' ? (para 3)

2. Read the passage given below and answer the questions that follow : 12

- 1 An epidemic of obesity or being overweight is affecting many countries in the world; more than 300 million people are obese or overweight. Obesity could be for a particular reason. In India, some people tend to be overweight because of their high calorie diet and lack of physical activities. In the United States, obesity is more prevalent in lower income groups. Obesity is now well recognised as a disease in its own right. Though obesity commonly means being overweight, it is defined as an excess amount of body weight that includes muscle, bone, fat and water. 'Obesity' specifically refers to an excess amount of body fat.
  - 2 A certain amount of body fat is needed to store energy, keep warm and absorb the shocks. Usually men with more than 25% body fat and women with more than 35% body fat are regarded as obese. Obesity tends to run in families suggesting a genetic cause. Environmental factors include lifestyle behaviour such as what a person eats and his or her level of physical activity. So, one should choose more nutritious food which is low in fat, and become more active.
  - 3 Then, there are psychological factors. Negative emotions such as boredom, sadness and anger are the main culprits. Then there is also 'binge eating' i.e. when people eat large amounts of food thinking that it is beyond their control how much they eat. Those with the most severe binge eating problem are also likely to have more symptoms of depression and low self-esteem.
  - 4 Obesity is a health hazard giving rise to many serious medical conditions like type 2 diabetes, heart disease, high blood pressure and stroke. Obesity is also linked to a higher rate of certain types of cancer. There are many ways of losing weight but exercise is the best as it is free from any type of harmful side effects.
